Work begins at Nabinagar CHP Site

Nabinagar has the distinction of being the constituency of an architect of modern Bihar, the eminent nationalist and the state's first deputy Chief Minister cum Finance Minister Bihar Vibhuti Dr Anugrah Narayan Sinha.

agreement with National Thermal Power Corporation (NTPC).

Nabinagar Power Generating Company Pvt. Ltd, a joint venture between NTPC Limited and Bihar State Power (Holding

Nabinagar today is emerging as the 'power hub' of Bihar, albeit of a different sort.

The Bihar Government has chosen it as the site of its coal based super thermal power plant to be set up under an

Company Ltd., has awarded the contract for setting up the highest capacity Coal Handling Plant (CHP) for the Nabinagar Power Project to TRF Ltd.

The Company will design, engineer, manufacture, supply, erect, test and commission the coal handling plant for the 3 x 660 MW coal based super thermal power project. The contract also includes civil and structural work.

Speed@TRF provides a pictorial

glimpse of the ongoing ground level activity at Nabinagar under the leadership of Kumar Sudhansu Shekhar Singh. TRF will set up three wagon tipplers at Nabinagar. Excavation work for this has begun in full swing.
