## **TRF Singapore Pte Ltd**

### **Directors' Statement**

---

The Directors present their statement to the member together with the audited financial statements of TRF Singapore Pte Ltd (the "Company") for the financial year ended 31 March 2017.

#### **Opinion of the directors**

In the opinion of the directors,

- (a) the accompanying balance sheet, statement of comprehensive income, statement of changes in equity and cash flow statement together with notes thereto are drawn up so as to give a true and fair view of the state of affairs of the Company as at 31 March 2017 and the financial performance, changes in equity and cash flows of the Company for the financial year ended on that date, and
- (b) at the date of this statement, there are reasonable grounds to believe that the Company will be able to pay its debts as the immediate holding company has given an undertaking not to recall the amount owing to it in the next 12 months from the date of undertaking letter if the Company is unable to continue in operational existence for the foreseeable future to enable the Company to meet its liabilities as and when they fall due.

#### **Directors**

The Directors of the Company in office at the date of this statement are:

Srinivasa Reddy Polimera  
Ng Poh Beng

#### **Arrangements to enable Directors to acquire shares and debentures**

Neither at the end of nor at any time during the financial year was the Company a party to any arrangement whose objects are, or one of whose object is, to enable the Directors of the Company to acquire benefits by means of the acquisition of shares or debentures of the Company or any other body corporate.

#### **Directors' interests in shares and debentures**

No Director of the Company who held office at the end of the financial year, had, according to the register of directors' shareholdings required to be kept under Section 164 of the Singapore Companies Act, Cap. 50, interest in shares, share options, warrants or debentures of the Company, or of related corporations, either at the beginning or at the end of the financial year.

**TRF Singapore Pte Ltd**

**Directors' Statement**

---

**Option**

There is presently no option scheme on unissued shares of the Company.

**Auditor**

Ernst & Young LLP have expressed their willingness to accept reappointment as auditor.

**Independent Auditor's Report  
For the financial year ended 31 March 2017**

**Independent Auditor's Report to the Member of TRF Singapore Pte Ltd**

---

**Report on the audit of the financial statements**

We have audited the financial statements of TRF Singapore Pte Ltd (the "Company"), which comprise the balance sheet as at 31 March 2017, the statement of comprehensive income, statement of changes in equity and cash flow statement of the Company for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

**Opinion**

In our opinion, the accompanying financial statements are properly drawn up in accordance with the provisions of the Companies Act, Chapter 50 (the Act) and Financial Reporting Standards in Singapore (FRSs) so as to give a true and fair view of the financial position of the Company as at 31 March 2017 and of the financial performance, changes in equity and cash flows of the Company for the year ended on that date.

**Basis for opinion**

We conducted our audit in accordance with Singapore Standards on Auditing (SSAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Accounting and Corporate Regulatory Authority (ACRA) Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities (ACRA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Singapore, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ACRA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Other information**

Management is responsible for other information. The other information comprises general information and directors' statement set out on pages 1 and 2.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### **Responsibilities of management and directors for the financial statements**

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Act and FRSs, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The directors' responsibilities include overseeing the Company's financial reporting process.

### **Auditor's responsibilities for the audit of the financial statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

TRF Singapore Pte Ltd

**Independent Auditor's Report**  
For the financial year ended 31 March 2017

**Independent Auditor's Report to the Member of TRF Singapore Pte Ltd**

---

**Auditor's responsibilities for the audit of the financial statements (cont'd)**

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Report on other legal and regulatory requirements**

In our opinion, the accounting and other records required by the Act to be kept by the Company have been properly kept in accordance with the provisions of the Act.

*The accompanying accounting policies and explanatory notes form an integral part of the financial statements.*

**1. Corporate information**

TRF Singapore Pte Ltd (the "Company") is a private limited company incorporated in Singapore. The Company is a wholly-owned subsidiary of TRF Limited incorporated in India.

The registered office and principal place of business of the Company is located at 6 Battery Road, #10-01, Singapore 049909.

The principal activity of the Company is that of an investment holding company. There has been no significant change in the nature of this activity during the financial year.

**2. Summary of significant accounting policies**

**2.1 Basis of preparation**

The financial statements of the Company have been prepared in accordance with Singapore Financial Reporting Standards ("FRS").

The financial statements have been prepared on a historical cost basis and are presented in Singapore Dollars ("SGD" or "\$").

Consolidated financial statements have not been prepared as the Company is itself a wholly-owned subsidiary of TRF Limited, incorporated in India that prepares consolidated financial statements. Accordingly, the Company is not required under FRS 27 Consolidated and Separate Financial Statements to prepare consolidated financial statements. The registered office of TRF Limited is 11, Station Road, Burma Mines, Jamshedpur 831007, India.

**2.2 Changes in accounting policies**

The accounting policies adopted are consistent with those of the previous financial year, except in the current financial year, the Company has adopted all the new and revised standards which are effective for annual periods beginning on or after 1 April 2016.

The adoption of these standards and interpretations did not have any effect on the financial performance or position of the Company.

**2.3 Standards issued but not yet effective**

The Company has not adopted the following standards that have been issued but not yet effective:

<i>Description</i>	<i>Effective for annual periods beginning on or after</i>
Amendments to FRS 7 <i>Disclosures Initiative</i>	1 January 2017
FRS 109 <i>Financial Instruments</i>	1 January 2018
Amendments to FRS 110 and FRS 28: <i>Sale or Contribution of Assets between an Investor and its Associate or Joint Venture</i>	To be determined**

\*\* The mandatory effective date of the Amendment had been revised from 1 January 2016 to a date to be determined by the Accounting Standards Council ("ASC") in December 2015 via Amendments to Effective Date of Amendments to FRS 110 and FRS 28.

**2. Summary of significant accounting policies (cont'd)**

**2.3 *Standards issued but not yet effective***

The directors expect that the adoption of the standards above will have no material impact on the financial statements in the period of initial application. The nature of the impending changes in accounting policy on adoption of FRS 109 is described below.

FRS 109 *Financial Instruments*

FRS 109 introduces new requirements for classification and measurement of financial assets, impairment of financial assets and hedge accounting. Financial assets are classified according to their contractual cash flow characteristics and the business model under which they are held. The impairment requirements in FRS 109 are based on an expected credit loss model and replace the FRS 39 incurred loss model.

*Impairment*

FRS 109 requires the Company to record expected credit losses on all of its loans and trade receivables, either on a 12-month or lifetime basis. The Company expects to apply the simplified approach and record lifetime expected losses on all loans and trade receivables. Upon application of the expected credit loss model, the Company expects no significant impact on its equity, but it will need to perform a more detailed analysis which considers all reasonable and supportable information, including forward-looking elements to determine the extent of impact. The Company plans to adopt the new standard on the required effective date.

**2.4 *Foreign currencies***

The financial statements are presented in Singapore Dollars ("SGD"), which is also the Company's functional currency, and which reflects the economic substance of the underlying events and circumstances of the Company.

***Transactions and balances***

Transactions in foreign currencies are measured in the functional currency of the Company and are recorded on initial recognition in the functional currency at exchange rates approximating those ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the end of the reporting period. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

Exchange differences arising on the settlement of monetary items or on translating monetary items at the end of the reporting period are recognised in profit or loss.

**2.5 *Subsidiaries***

A subsidiary is an entity over which the Company has the power to govern the financial and operating policies so as to obtain benefits from its activities. The Company generally has such power when it directly or indirectly, holds more than 50% of the issued share capital, or controls more than half of the voting power, or controls the composition of the board of directors.

Investments in subsidiaries are accounted for at cost less impairment losses.

2. **Summary of significant accounting policies (cont'd)**

2.6 ***Impairment of non-financial assets***

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company makes an estimate of the asset's recoverable amount.

An asset's recoverable amount is the higher of an asset's or cash-generating unit's fair value less costs of disposal and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. Where the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows expected to be generated by the asset are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

An assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Company estimates the asset's or cash-generating unit's recoverable amount.

An assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Company estimates the asset's or cash-generating unit's recoverable amount.

A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised previously. Such reversal is recognised in the profit or loss.

2.7 ***Financial instruments***

(a) ***Financial assets***

**Initial recognition and measurement**

Financial assets are recognised when, and only when, the Company becomes a party to the contractual provisions of the financial instrument. The Company determines the classification of its financial assets at initial recognition.

When financial assets are recognised initially, they are measured at fair value, plus, in the case of financial assets not at fair value through profit or loss, directly attributable transaction costs.

2. Summary of significant accounting policies (cont'd)

2.7 *Financial instruments (cont'd)*

(a) *Financial assets (cont'd)*

**Subsequent measurement**

Non-derivative financial assets with fixed or determinable payments that are not quoted in an active market are classified as loans and receivables. Subsequent to initial recognition, loans and receivables are measured at amortised cost using the effective interest method, less impairment. Gains and losses are recognised in profit or loss when the loans and receivables are derecognised or impaired, and through the amortisation process.

**Derecognition**

A financial asset is derecognised where the contractual right to receive cash flows from the asset has expired. On derecognition of a financial asset in its entirety, the difference between the carrying amount and the sum of the consideration received and any cumulative gain or loss that has been recognised directly in other comprehensive income is recognised in profit or loss.

**Regular way purchase or sale of a financial asset**

All regular way purchases and sales of financial assets are recognised or derecognised on the trade date i.e., the date that the Company commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace concerned.

(b) *Financial liabilities*

**Initial recognition and measurement**

Financial liabilities are recognised when, and only when, the Company becomes a party to the contractual provisions of the financial instrument. The Company determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognised initially at fair value and in the case of other financial liabilities, plus directly attributable transaction costs.

**Subsequent measurement**

After initial recognition, other financial liabilities are subsequently measured at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss when the liabilities are derecognised, and through the amortisation process.

**Derecognition**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in profit or loss.

2. **Summary of significant accounting policies (cont'd)**

2.8 ***Impairment of financial assets***

The Company assesses at each reporting date whether there is any objective evidence that a financial asset is impaired.

***Financial assets carried at amortised cost***

For financial assets carried at amortised cost, the Company first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Company determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be recognised are not included in a collective assessment of impairment.

If there is objective evidence that an impairment loss on financial assets carried at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate. If a loan has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate. The carrying amount of the asset is reduced through the use of an allowance account. The impairment loss is recognised in profit or loss.

When the asset becomes uncollectible, the carrying amount of impaired financial asset is reduced directly or if an amount was charged to the allowance account, the amounts charged to the allowance account are written off against the carrying value of the financial asset.

To determine whether there is objective evidence that an impairment loss on financial assets has been incurred, the Company considers factors such as the probability of insolvency or significant financial difficulties of the debtor and default or significant delay in payments.

If in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed to the extent that the carrying amount of the asset does not exceed its amortised cost at the reversal date. The amount of reversal is recognised in profit or loss.

2.9 ***Cash and cash equivalents***

Cash and cash equivalents comprise cash at bank that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

2. **Summary of significant accounting policies (cont'd)**

2.10 ***Borrowing costs***

Borrowing costs are generally expensed in the period in which they are incurred. Borrowing costs are capitalised if they are directly attributable to the acquisition, construction or production of a qualifying asset. Capitalisation of borrowing costs commences when the activities to prepare the asset for its intended use or sale are in progress and the expenditures and borrowing costs are being incurred. Borrowing costs are capitalised until the assets are substantially completed for their intended use or sale. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

2.11 ***Provisions***

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic resources will be required to settle the obligation and the amount of the obligation can be estimated reliably.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provision is reversed.

2.12 ***Revenue***

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is made. Revenue is measured at the fair value of consideration received or receivable, taking into account contractually defined term of payment. The following specific recognition criteria must also be met before revenue is recognised :

***Dividend income***

Dividend income is recognised when the Company's right to receive payment is established.

2.13 ***Income taxes***

(a) ***Current income tax***

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the end of the reporting period, in the country where the Company operates and generates taxable income.

Current income taxes are recognised in profit or loss except to the extent that tax relating to items recognised outside profit or loss, either in other comprehensive income or directly in equity.

2. Summary of significant accounting policies (cont'd)

2.13 *Income taxes (cont'd)*

(b) *Deferred tax (cont'd)*

Deferred tax is provided using the liability method on temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all temporary differences, except:

- Where the deferred income tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- In respect of temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised except:

- where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax asset is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the end of each reporting period.

2. **Summary of significant accounting policies (cont'd)**

2.13 **Income taxes (cont'd)**

(b) **Deferred tax (cont'd)**

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity and deferred tax arising from a business combination is adjusted against goodwill on acquisition.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current income tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

3. **Significant accounting estimates and judgements**

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the end of each reporting period. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future periods.

**Key source of estimation uncertainty**

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of each reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

**Impairment of non-financial assets**

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when an annual impairment testing for an asset is required, the Company makes an estimate of the asset's recoverable amount.

An asset's recoverable amount is the higher of an asset's or cash-generating unit's fair value less costs of disposal and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. Where the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows expected to be generated by the asset are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

**3. Significant accounting estimates and judgements (cont'd)**

**Key source of estimation uncertainty (cont'd)**

***Impairment of non-financial assets (cont'd)***

Impairment losses are recognised in profit or loss in those expense categories consistent with the function of the impaired asset.

An assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Company estimates the asset's or cash-generating unit's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increase cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised previously. Such reversal is recognised in profit or loss.

***Impairment of loans and receivables***

The Company assesses at the end of each reporting period whether there is any objective evidence that a financial asset is impaired. Factors such as the probability of insolvency or significant financial difficulties of the related company or subsidiary companies and default or significant delay in payments are objective evidence of impairment. In determining whether there is objective evidence of impairment, the Company considers whether there is observable data indicating that there have been significant changes in the related company's or subsidiary companies' payment ability or whether there have been significant changes with adverse effect in the technological, market, economic or legal environment in which the related company or subsidiary companies operate in.

Where there is objective evidence of impairment, the amount and timing of future cash flows are estimated based on historical loss experience for assets with similar credit risk characteristics. The carrying amount of the Company's loans and receivables at the end of the reporting period is disclosed in Note 9, Note 10 and Note 11 to the financial statements.

**Notes to the Financial Statements**  
**For the financial year ended 31 March 2017**

<b>4. Other income</b>		
	<b>2017</b>	<b>2016</b>
	\$	\$
Interest income on amount due from subsidiaries	63,611	53,505
<b>5. Finance costs</b>		
	<b>2017</b>	<b>2016</b>
	\$	\$
Interest expense on amount due to a subsidiary company	–	7,948
<b>6. (Loss)/profit before tax</b>		
The following item has been included in arriving at (loss)/profit before tax:		
	<b>2017</b>	<b>2016</b>
	\$	\$
Unrealised foreign exchange loss, net	139,971	113,773
Legal and other professional fees	46,402	36,578
Impairment loss on investment in a subsidiary (Note 8)	–	1,913,760
<b>7. Income tax expense</b>		
No current taxation had been provided in the financial statements as the Company has no taxable income.		
A reconciliation of the tax expense and the product of accounting (loss)/profit multiplied by the applicable tax rate for the years ended 31 March were as follows:		
	<b>2017</b>	<b>2016</b>
	\$	\$
(Loss)/profit before tax	(160,916)	2,281,840
Tax at the applicable tax rate of 17%	(27,356)	387,913
Income not subject to tax	–	(745,025)
Tax effect of non-deductible expenses	27,356	357,113
Tax expense	–	–

2017: Nil (2016: \$2,145,000) per share	-	2,145,000
	-	2,645,000

---

**15. Related party transactions**

In addition to the related party information disclosed elsewhere in the financial statements, the following significant transactions between the Company and related parties took place during the period at terms agreed between the parties.

	2017	2016
	\$	\$
Interest income on amount due from a subsidiary company	63,611	53,505

---

**16. Financial risk management objectives and policies**

The main risk arising from the Company's financial instruments is liquidity risk. There has been no change to the Company's exposure to this risk or the manner in which it manages and measures the risk. The board reviews and agrees policies for managing this risk and it is summarised below:

**Liquidity risk**

Liquidity risk is the risk that the Company will encounter difficulty in meeting financial obligations due to a shortage of funds.

The Company monitors and maintains a level of cash and cash equivalents deemed adequate by management to finance the Company's operations. Short-term funding is obtained from its immediate holding company.

**Analysis of financial instruments by remaining contractual maturities**

The table below summarises the maturity profile of the Company's financial assets and liabilities at the balance sheet date based on contractual undiscounted repayment obligations.

	2017			2016		
	1 year or less \$'000	1 to 5 years \$'000	Total \$'000	1 year or less \$'000	1 to 5 years \$'000	Total \$'000
<b>Financial assets</b>						
Amount due from related company	–	3,562	3,562	–	1,063	1,063
Amount due from subsidiary companies	1,727	–	1,727	3,571	–	3,571
Cash and cash equivalents	135	–	135	1,015	–	1,015
<b>Total undiscounted financial assets</b>	<b>1,862</b>	<b>3,562</b>	<b>5,424</b>	<b>4,586</b>	<b>1,063</b>	<b>5,649</b>
<b>Financial liabilities</b>						
Accrued operating expenses	21	–	21	9	–	9
Amount due to immediate holding company	–	1,895	1,895	1,859	–	1,859
<b>Total undiscounted financial liabilities</b>	<b>21</b>	<b>1,895</b>	<b>1,916</b>	<b>1,868</b>	<b>–</b>	<b>1,868</b>
<b>Total net undiscounted financial assets</b>	<b>1,841</b>	<b>1,667</b>	<b>3,508</b>	<b>2,718</b>	<b>1,063</b>	<b>3,781</b>

**17. Fair value of financial instruments**

**Fair value of financial instruments that are not carried at fair value and whose carrying amounts are a reasonable approximation of fair value**

The carrying amounts of cash and cash equivalents, accrued operating expenses and amounts due to immediate holding company and subsidiary company are reasonable approximation of fair values due to their short-term nature.

**Fair value of financial instruments that are not carried at fair value and whose carrying amounts are not reasonable approximation of fair value**

The amount due from a related company is not expected to be repayable within the next twelve months and is repayable only when the cash flow of the Company permits. Accordingly, the fair value of this balance is not determinable as the timing of the future cash flow arising from these balances cannot be estimated reliably.

**18. Capital management**

The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholder.

The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholder, return capital to shareholder or issue new shares. No changes were made in the objectives, policies or processes during the years ended 31 March 2017 and 31 March 2016.

**19. Authorisation of financial statements for issue**

The financial statements for the financial year ended 31 March 2017 were authorised for issue in accordance with a resolution of the directors on 23 May 2017.
